COMBISR2/INSTALL/DOC1	Rev 1	Lochrin Combi™ SL2 High Security Palisade Fencing Installation Guide

Notes:

1. The 'angles in fence line' define the range of angles covered by the scope. These are measured between the attack faces of two adjacent fence panels.
2. The fencing system is available in configurations to suit either surface mounting onto hard surfaces or embedding within concrete foundations placed in the ground. It is important to ensure that the local ground onto/into which the fence is installed offers compatible strength.
3. The fencing system should only be constructed and installed in accordance with the installation guide provided by Lochrin Bain Limited (COMBISR2/INSTALL/DOC1 Revision 1) and Installation Drawings, only using appropriate components supplied by Lochrin Bain Limited.
